

EASY CLEAN Algae MD

Highly Concentrated Wash Tank Additive

Keeps Processor Wash Rack Rollers, Tanks and Stabilizer Solutions Clean and Free Running

**Rapid Cleaning Agents that Remove Algae Slime & Dirt.
With water softening agents to keep wash tanks scale free**

Stops Re-formation of Dirt and Slime

Keeps Wash Tanks and rollers in clean working order

Stops! Unscheduled downtime to clean out dirty wash/rinse tanks and racks.
Stops! Algae/slime build-up that would cause blockages in overflows or drains.
Stops! Blemished or marked finished work.
Stops! Algae/slime from re-occurring within the rinse water or stabilizer solution.

Safe, Non-Toxic, Non-Corrosive, Bio-Degradable EASY CLEAN Algae MD

EASY CLEAN Algae MD: A highly concentrated, blend of cleaning agents.

Breaks down bio-film which causes clogging, slimy bio-slime.

Dose daily in wash tanks before shut down

EASY CLEAN Algae MD is safe to be left in the processor. No need to drain before use.

All Film and Paper Processors:

Easy and economical to use. Simply add 1 shot (min 25ml) daily to each wash/rinse tank. Keeps water tanks fresh, clean and algae free.

Stabilizer Solutions

Add 1 shot of **EASY CLEAN Algae MD** to every fresh batch of stabilizer solution to keep stabilizer sweet and prolong stabilizer life. Stops 'bad sulphur smell'

N.B. To dose **EASY CLEAN** automatically use the **Colenta Pump System** inline automatic dosing system and **EASY CLEAN Algae MD**
